Power Washing

Mighty Mobile Wash Water Filtration Systems

Don't Complain, Comply!

Work easily with most water pickup devices available

Vacuums

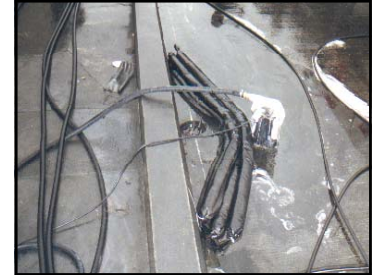

Vacu-booms

Containment Mats

Sandams & pickup pumps

All Mighty Mobile units can be easily truck or trailer mounted, and with the addition of a water tank and a water pump, they can easily be converted into a "Closed Loop", Zero Discharge, Wash Water Recycling System.

MD-36 built on a skid

LD-30 trailer mounted

Simple to operate

The Wash Water filtration units are the easiest to use of any filtration system available. Its automatic On/Off, single pump configuration not only reduces the need for maintenance and high replacement costs but allows you to plug it into any 110 volt electrical power supply. The system connects easily to your sump pit pump via hose or P.V.C.

**Why pay more...
For the same results**

Cleans great

Under normal Non-Hazardous power washing, The Wash Water Filtration units can eliminate your compliance problems. Each model has a capacity to clean down to a **5 micron level or lower** and is easily adapted to a "Closed Loop" **Zero Discharge** system if needed. All materials are corrosion proof providing a low maintenance, low cost and highly effective wash water filtration unit.

**Why pay more...
If you don't need to.**

Transportable

The Mighty Mobile systems are small, lightweight and compact. They fit easily in a truck, van or trailer and can be moved quickly.

**Why pay more...
If you don't want to.**

Low maintenance, Low cost, Works great...

Why pay more?

1 Inlet Prefilter

Removable spindown filter prefilters water of larger debris and is easily removed for cleaning

2 Coalescing Plates

Specially designed vertical coalescing plates help separate oil, grease, and dirt from the water

3 Oil Skimmer

Adjustable P.V.C. design removes floating oils from the unit

4 Reticulated Media Packs

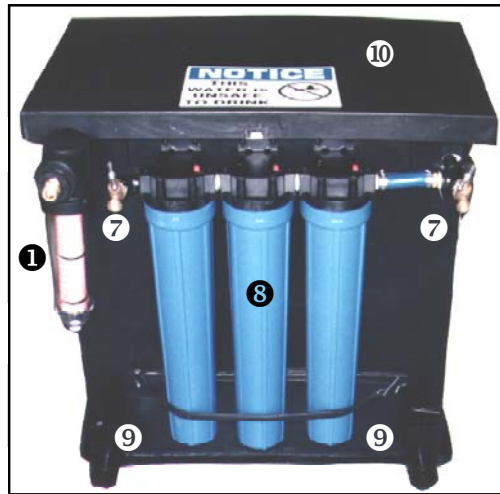

Large and Medium sized, washable and reusable filters to capture smaller sized particles.

5 Polypropylene Filter Bags

Washable and reusable filters for removal and absorption of suspended oil & dirt particles

6 Automatic pump

FRONT VIEW

7 Two Discharge Outlets

For easy discharge of water either before or after the polishing filters

8 Polishing Filters

1st-20" polishing filter cleans water down to 50 microns.
2nd-20" polishing filter cleans water down to 10 microns
3rd-20" polishing filter cleans water down to 5 microns
4th-20" polishing filter

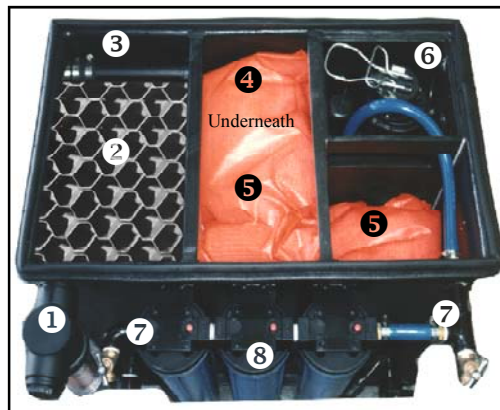

Note The MD-48 has 4 separation chambers and 4 polishing filters, setup in a 100-50-10 & 5 micron sequence

9 1 1/2" Gate Dump Valves

Easy access dump valves for quick & easy cleaning of the system

10 Lid with seal & fasteners

Allows for quick access to the inside of unit

TOP VIEW

Easy to use & clean

Each Mighty Mobile unit takes only minutes to assemble & install. When done, simply fill the system with water, plug it in & go! The system turns itself on & off and cleanup is easy. With the quick release lid, easily removable internal filters and large 1 1/2 inch gate valves, cleaning time is reduced to as little as 15 minutes.

Now That's easy!

**Why pay more...
To work harder**

Affordable

Always compare operating & shipping costs! The majority of the mighty mobile filters are washable & reusable. The filters needing periodic replacement are standard, locally available and inexpensive to replace. Since the units are also lightweight they cost you less to move or ship. These advantages give you a cost effective solution to your wash water filtration problems.

**Why pay more...
And more, and more.**

Water Treatment Technologies has been manufacturing the "Mighty Mobile" series since 1995. With hundreds of hard working units in the field, these units have proven themselves over & over again to be the most reliable and affordable unit available!

**Why Complain...
Comply!**

Mobile Series Specifications

Model	Price	Dimensions	Shipping Weight	Weight Full	Electrical Requirement	Flow Rate
LD-30		24"W x 30"L x 32"H	115 Lbs.	775 Lbs	110 volt 10 amps.	1-10 G.P.M.
MD-36		30"W x 36"L x 32"H	135 Lbs.	950 Lbs	110 volt 10 amps.	1-10 G.P.M.
MD-48		30"W x 48"L x 32"H	155 Lbs.	1250 Lbs	110 volt 10 amps.	1-10 G.P.M.

All prices, dimensions & flows subject to change and with added components. All specifications above are approximate. Freight & Tax not included. All units come with a 1 year warranty and produce non-drinkable water. Always check guidelines prior to discharge. Dec-00

Stationary Above Ground Units, Oil/Water Separators, Clarifiers & Water Treatment Supplies also available!

Stationary, Sewer Discharge or Closed Loop "ZERO" Discharge Systems

Oil/Water Separators & Above ground clarifiers

Multi-Media polishing systems & filters
